DOCUMENTATION YOU SHOULD TAKE ON BOARD

Before leaving the port :

1. Check the weather conditions (download WINDY APP)
 2. Remove the covers
 3. Connect the battery(ies)
 4. Connect the smoke extractor (BLOWER) /except diesel engines which connect automatically and wait 4 minutes before starting the engine
 5. Check where is the safety equipment
 6. Check "man overboard"
 7. Operate the starter and disconnect the BLOWER 4 minutes after starting the engine
 8. Check the fuel level
 9. Remember to disconnect the smoke extractor
 10. Release the guide rope and check that it is not snagged on the anchor, fenders, etc.
 11. Remove the fenders
 12. Quickly - operate the pump and turn it off a few minutes later
-

After entering the port :

1. Attach the harbour mooring lines to the cleats
2. Stop the engine
3. Attach the guide rope
4. Disconnect the battery(ies)
5. Wash the boat with fresh water
6. Put on the covers

Go to channel 9 at low power. Press the transmit button, and remember to speak slowly and clearly, and end each communication with OVER.

You say

Marina... Marina...

It's "Boat name" "Boat name" OVER

Wait for a response (2 minutes)

Make your request

We are "Name of the boat", can we come in for OVER.

Wait for the response, and you will be notified if entry is possible

If it is possible, you will be told where to put the boat.

Boat Details :

Boat Name

X Metres length

X Metres width

Boat Engine

VHF WITH DSC
